About me

As a manager of a website building studio, I have extensive knowledge in building and designing various types of websites.

This includes company websites, product websites, landing pages, online shops, and user interface design.

Experience

Work at Devforce/Shareit Nov 2019 - Dec 2023 Tel aviv ,IL

I have experience managing a website-building studio.

I specialize in WordPress and Elementor.

I am skilled in building e-commerce sites, using plugins, and understanding code.

I can write CSS and HTML code. I am familiar with Upress/Cloudways servers.

I have been working in Devforce-Shareit for four years, managing large clients and their website.

Some of my clients: KTM Israel, Ofakim FCM, TZUBA, Bg Jewelers, Sensecom

Studies

Engineering studies in Ruppin Aug 2017 - Aug 2019

I studied media engineering at Rupin College for two years.

During that time, I learned how to use Figma and Adobe software.

My studies focused on creating user experiences and UX-UI design.

I learned how to create various types of websites, such as corporate, catalog, landing pages, and e-commerce sites.

I learned how to think creatively and how to edit photos and videos.
